NO MORE COD LIVER OIL

GRIMAULT'S SYRUP OF IODIZED HORSH RADISH

The syrup is employed with the greatest success, it place of Cod Laver Oil, to which it is infinitely superior it curse diseases of the chest, serodia, fruphate disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by partifying the blood, and is, in a word, the most powerful deparative known. It never integrets the stomach and bowls, and is administered with the greatest efficacy to young children subject to humans or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME

This new medicine is a sovereign remedy in phthisis and other diseases of the lungs, promptly removes at the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers his health.

No More Poverty of the Blood and Pale Complexion,

DRS. LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto oftered to the public, is liquid, colorless and tasteless. It specificy eures chlorosis, pains in the stomach, difficult digestion, dysmenorrhova and nnemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to keies of delicate constitution suffering from anema, and other persons latigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes constipation, and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias. Instantaneously cured by

The Mayoralty.

Mr Macdonald is sure of a triumph ant return as Mayor of the city-in fact, there will be no serious opposition to him. Mr Bunster, it is true, is in the field with staring letters; but it is understood that he would much rather the electors should accept his ale than him, and we hope that he will not be disappointed, for he brews a good article. Our evening cotemporary, we are amused to notice, continues to urge the claims of its patron, C. B. Young, upon the public; but as it is asserted that that person is ineligible for the position, and that he would not be allowed to take his seat even if returned, the efforts of our cotemporary are probably only intended to its favorite. Seriously, we hope that Young will stand, for the whole community would be delighted to see the concert taken out of him by an overs whelming defeat such as he would be sure to sustain. The electors are determined that none but good men shall occupy the positions of Mayor and Councillors. For the latter, they Oaxaco. cannot do better than select the old Board, and for Mayor, if they wish to maintain the respectability of the city, they must return Mr Macdonald.

The Reception.

The unostentatious yet respectful reception extended Mr Seymour yesterday, was all that his triends could have asked or expected. There was no enthusiasm; but a feeling in favor of giving the new Government a fair Fenians in Canada. trial, and to assist it in every possible way, was universally expressed. There was no attempt at excitement or insult-notwithstanding the efforts put forth in that direction for several weeks. The disposition manifested was conciliatory, and if the people did not exactly extend the olive branch to His Excellency, they, at least, by their respectful, quiet demeanor, gave him to understand that there are no more loyal or law-abiding subjects than Victorians; and that they are prepared to give him a warm support should his future acts entitle him to

ADDRESS TO THE MAYOR.

Previous to the adoption of the minutes, Councillor Gowen said he regretted the Mayor did not consent to offer himself again to fill the chair in which he so ably presided, and was now about to vacate. The following address was then presented and agreed to unanimously:

unanimously:

To LUMLEY FRANKLIN, ESQ.,
MAYOR OF THE CITY OF VICTORIA, V. I.

DEAR SIR,—We, the City Councillors of the City of Victoria, V. I., at this, the closing Meeting of the Municipal year, desire to express our great satisfaction at the courteous manner in which you have presided over and conducted the deliberations of the Council during your Mayoralty, and for your ready and prompt assistance afforded at all Committee meetings.

How of duty into their ports, he will find "it won't pay." With reference to his second proposition, "I fail to perceive" any connection be tween it and the first, and am led to believe that they were intended for two arguments, the "secondly of which got misplaced," or Mr McClure thought by adopting a sophistical style of reasoning, to palm off on his audience a very clumsy fallacy.

the "secondly of which got misplaced," or should we not be in a much better position of style of reasoning, to palm off on his addience a very clumsy fallacy.

To put then what he wished to say, in its true logical form (supposing all his propositions had been clearly defined and proved) it would stand thus: 1st, Reciprocity in trade with the United States is desirable. This cannot be obtained without our becoming an integral part of the United States; therefore Union with the United States; should be likely as the Colonial ports of entry and delivery, up until 1838 or 40, out of which however she paid the civic list of the provinces. Never passed them into the coffers inces. Never passed them into the coffers of England. Of what then are we complaining from which annexation to the United States would exempt us. Have we not to-day all the protection for life and property that the most forward State has? and have we not a much country the office of the Colory Union with the United States should be Sought for. His second argument is thus: 1st a cheap and responsible form of Government is desirable for the Colony; 2d, the United States has a cheap and responsible form of Government. Therefore, by annexation to the United States, we shall obtain both a place and Researchibe Government and

the United States, we shall obtain both a cheap and Responsible Government, and free trade with them.

This, then, is what I conceive to be the end aimed at by Mr McClure. But as his propositions were neither defined nor proved, merely taken for granted, he must not think it strange if the melocal his conceive in the propositions. it strange if the whole of his conclusions are pronounced incapable of being supported by

lasts.

1st. Reciprocity with the United States is desirable. If Mr McClure had defined what he meant by the term, we should have been in a better position to decide on the equity of the arrangement. If reciprocity is to be restricted to certain articles; then it may be effected now, we are to become a dutiable pert without annexation. It has been before in Canada. But if Mr McClure means to extend it, as referred to above, the effect will be to keep all our ports free for American products, and to close them to the mother country, and all the world besides. By adopting this course we should be compelled to retain our real estate and all the other o retain our real estate and all the other obnoxious taxes to sustain a Government, for California would supply our market. To have a proposition in so undefined a state precludes the possibility of saying whether reciprocity is desirable or not. The second proposition falls to the ground, because it has been shown that reciprocity has ax t has been shown that reciprocity has ex-sted between the United States and British

inent without annexation, and therefore may in the west.

"His second argument—1st Cheap and Responsible Government is desirable.
2nd. The United States have a cheap and responsible Government, Therefore by union with or annexation to the United States, we have a cheap and responsible Government. with or annexation to the officed states, we shall obtain both a cheap and responsible Government." Now, there will hardly be two opinions on a desirableness of the first proposition; n vertheless, in order to have a clear understanding as to what is meanly admitted to the control of the co clear understanding as to what is meant, some definition is necessary; for whatever we may think about it, Governments as marketable commodities are not always the "cheapest" that are to be purchased at the lowest nominal ice, and therefore we ought to have clearly defined what is meant by cheap and resp sible Government, otherwise the use of such terms is calculated to misslead. The second or minor premise in this

ossessions on the eastern side of the Con-

lead. The second or minor premise in this argument, Mr McClure would wish us to take for granted as a fact. Now, however successful he may be in defining the first, I deny in toto his assumption in the second, and therefore his conclusion, and assert, without the fear of successful contradiction, that the Colonial Governments of Great Britain are less expensive and more responsi-ble than the Governments ot the United States. To prove this will be sufficient to refute Mr McClure's assertions, but I might go further and show that the Governments of the United States are more expensive than the Governments of Great Britain. Without going into detail of figures to prove the assertion here made. (deem it sufficient the assertion here made, I deem it sufficient to show the financial arrangement of the United States Goverument. The Central

Government controls all the imposts or customs and internal revenues which in the last year fell little short of £100.000,000 sterling, not one dollar of which returns to the respective States from which it was drawn toward the expenses of the State, county or city, Governments. This large sum of morely has been raised and will continue to be raised by the people of the United States, with a debt on their shoulders of nearly six hundred million sterling, bearing an interest on the average of seven per cent, which makes the debt, taking the amount of interest to be provided for (as estimate), equal to half as much again as the national debt of England, its interest being not more than three and a Government controls all the imposts or cus-

In addition, then, to this large amount, every State has to sustain its own expenses.
The Governor, it is true, get when compared with Governors of British Provinces small salaries, but all other officials downward have salaries, but all other officials downward have as large salaries as the provincials, and who does not know that the salaries are the smaller portion of income in the U. Aumexation Fallacies

Messas Eorrons:—One might be led to infer from the non-attempt to refute the assertions put forth, as argument by Mr Meclure at the theatre and the wayside approval of the position assumed by him with which our ears have been greeted since by certain sympathising friends, that the assertions were facts, and the position assumed invulnarable; but, with your permission, I will endeavor to show that nothing is further from the truth than such a conclusion,

It is not my object to speak of the meeting or its origin, but merely the arguments adduced by Mr McClure to attain the end proposed in Reciprocity with the United States at this time is much heavier than the taxes of Vannouver 18 land.

It is not my object to speak of the meeting or its origin, but merely the arguments adduced by Mr McClure to attain the end proposed in Reciprocity with the United States, and a cheap and responsible form of Government.

I will, in order to place the case before you imports have been wont to do, how should we stand think you? some years our imports have been \$4.000.000; now suppose n as concise a form as possible, reduce the imports have been \$4,000,000; now suppose "speech" to its original propositions.

1st. Reciprocity with the United States is desirable; 2d, a cheap and Responsible Government was also desirable; 3d, seeing that under British rule, neither the one or the other can be obtained, annexation to the United States should be sought at any cost, in order to obtain the end desired.

Such a style of syllogism may do very well for Mr McClure's purpose, but he knows full well that it has not the first lineament of sound argument about it. Before, then, that we can admit Mr McClure's propositions as premises, he must define what he intends by reciprocity with the United States. I he means that we should admit all American products into our ports duty free, on the conthat one half of this amount be foreign

MARKED.

Arrival of Governor Seymour.

Contrary to general expectation the steamship Active, bearing His Excellency Governor Seymour, Mrs Seymour, and suite, was seen to round Race Rocks yesterday at 10 a. m. The fire bells soon after summoned the firemen to assemble and the whole city was on the qui vive. In the meantime H. M. S. Malacca was observed to leave Esquimalt harbor and meet the coming steamer. On passing the Active the yards of the Malacca were manned and the Marines presented arms. The Active then steamed ahead taking in tow the ship's launch, and the Malacca followed to the mouth of the harbor, where she fired a salute. On entering the port the Active fired several guns in honor of the distinguished party on board. A large crowd had by this time collected at Brodrick's Wharf, the Rifle Corps under Lieut. Moorhead, and the Fire Department under Chief and Assistant Engineers Keenan and Burnes, being drawn up in line to receive His Excellency. The steamer was brought alongside the wharf in a seamanlike manner, and the following government officers immediately stepped on board and welcolmed His Excellency and lady: The Hon W A G Young Administrator of the Government; the Hon. A N Birch, Administrator of the Government of British Columbia; Mr Maunsell; Mayor Franklin; Hon. Attorney General Wood; Hou Treasurer Watson; Hon. Surveyor General Pearse; Sheriff Adamson ; Acting Colonial Secretary Nesbitt; Acting Registrar Woods the Town Clerk, &c. His Excellency was accompanied by his brother in-law and Pri-

vate Secretary, Mr Stapleton. On landing, the Volunteers presented arms the band playing God Save the Queen, and His Excellency and party having passed through the lines and received the salutes of the firemen, entered a close carriage in waiting on Store street, and drove immediately up to Government House. The Volunteers and Firemen then fell in, and after a short march through some of the streets, dismissel at their respective headquarters. At 1 o'clock the Gubernatorial party partook of luncheon at Government House.

A WAR-TATTERED EMBLEM .- Waving over the pilot house of the Active, as she approached the wharf yesterday, were the remains of a silk flag, which hung in tatters from a staff. On inquiry we learned that the flag was the property of Company Esecond U. S. Artillery, which company was on board en route for Steilacoom, W. T. The Second Artillery has a glorious fighting record, and the flag passed through fortythree engagements in the late American rebellion. The battle-flag is owned by its soldiers, and they have the greatest reverence for it, having nearly lost it once, and rescued it by the most desperate valor. At Trevillian Station, Virginia, on the 11th of June, 1864, the flag was captured, together with a field piece, and a considerable number of men, but by valliant effort, aided by the cavalry who came to the rescue, the flag and gun were recovered.

FROM COMOX.—The steamer Emily Harris returned from Comox via Nanaimo, yesterday morning. From W. R. Eurrage we learn that Mr Lindale's party of two men were landed at the dis-puted coal seam on Saturday last. They were met by two men in the employ of the original coal company, who notified effective. On Monday next, 5th November, Landale and his men to quit the ground at 7 o'clock, p. m., M. Deffis will give an inwithin 48 hours; no attention was paid to sight into the origin, formation and progress this notification, and on the return of the Emily Harris from Comox it was ascertained that no steps were taken to drive them away. At Comox the settlers were found to be genius, glancing at the same time, slightly, at much disappointed in consequence of the low price of produce. Mr Gordon of Nanalmo has taken up a farm at the settlement, and intends to remove his family thither.

SERIOUS ACIDENT .- On Monday afternoon a serious accident occurred st the Presidio, during the visit of Governor Kennedy, of Vancouver Island. Battery B, of the second Artillery, was firing a salute, and while one of the gunners, Michael Casey by name, was ramming down a charge of powder, the person attending the vent, or touch-hole, removed his finger, when the piece was discharged prematurely, tearing the flesh from the shoulder and arm of Casey, and inflicting a wound which may terminate fatally .- S. F.

FROM SAN FRANCISCO-The steamer Ac-Southgate and 56 US soldiers, arrived yes terday morning from San Francisco. The Active will go to New Westminster this Lieut. and Adjt. morning.

SALLIE HINCKLY .-- Most theatre-goers in this city remember the sprightly little actress whose name heads this paragraph After leaving here Sallie took to doing the Mazeppa business in the smallest quantity of clothes that a regard for decency would allow; subsequently she found her way to New York, where she did a rushing business and attracted the attention of a reputed Grandee of Spain, with whom she cloped to Paris, where she discovered that her companion was an imposter, who robbed and eft her penniless in the French capital.

THE REASON WHY-The Columbian says the reason why the New Westminster Cricks eters were so badly beaten was because they had not practised together. The other day the same paper discovered that it was not owing to the good shooting of the Victorians but to the bad shooting of the New Westminsterites that the former won the Rifle Match at New Westminster.

RETURN OF THE "ISABEL."-The steamer Isabel returned from Nanaimo last evening. The engines worked admirably. The steam er made the run up in 1134 hours from Es quimalt with the bark Delaware in tow, and an down light in 61/4 hours. The distance is 70 miles. Capt. Stamp and all on board were delighted with the performance of the

MARSH'S BENEFIT .- The theatre was crowded last night, and the entertainment was in every sense highly successful, both professionals and non-professionals eclipsed their previous efforts, and were loudly applauded. Owing to the pressure of mail news on our columns we are compelled to defer a critique on the performance:

FROM BRITISH COLUM BIA .- The steamer Enterprise arrived yesterday from Fraser river with 102 passengers; amongst whom were the Bank messengers, and Mr F. V Lee, who left the prisoner Barry charged with the murder of Blessing at New Westminster. The news in the Sentinell of the 29th has been mostly anticipated.

ST. GEORGE HOTEL-The public will be pleased to learn that this handsome hotel has been leased by Mr E O Holden-a gentleman who has had sixteen years' experience in the business-and that it will be opened on Friday as a first-class family hotel. The establishment will be under the immediate superintendence of Mr and Mrs Holden, a fact that furnishes a sufficient guarantee for its respectability.

BANKRUPTCY COURT YESTERDAY-J J Mecredy passed second examination and protection extended....L A Bendixen and J T Tarte passed first examination P Carter appeared for first examination, which was adjourned to 21st November.

BIG BEND-Passengers from Big Bend report that the Fort Yale Company on McCulough Creek bave struck pay at a depth of 70 feet. Also, that a company adjoining the Fort Yale have got dirt that prospects \$2 to every three pans.

Going Home-Mr Warren Lambert, part proprietor of the Cariboo Sentinel, arrived vesterday on the Enterprise. Mr Lamber has sold out his interest in the Sentinel and with a nice little sum to his credit is now leaving for his home in the East.

ARRIVAL OF TREASURE-Messrs Lawson and Glover brought down for the Bank of British North America, \$128,500, and Mr Fraser for the Bank of British Columbia, \$90,000. Total, \$218,500.

Swiss Bell Ringers-Mr W B Blaisdell's celebrated company of Swiss Bell Ringers left Portland yesterday on the steamer Fidelter, and will appear in their unrivalled performances in this city.

The nomination for Municipal officers will take place at the Police Barracks a noon to-day.

The telegraph wires from the East have reached Montana.

Duane, who killed Ross, at Francisco, has been acquitted.

Governor Kennedy and family left San Francisco for the East on the 30th ult. THE "CARIBOO SENTINEL" will be conduct-

The Custom receipts at New West- Sugar, Candles, Rice, Hams minster amounted last week to \$2523 38 passengers, 64.

It was reported last evening that the dam at Leech River had given way.

BED. The Fideliter left Portland yesterday

at 4:30 p. m. for this port. LANGUAGES .- Mons. B. Deffis, graduate of

the Academie de Paris, Professor of Languages, begs leave to state that he intende resuming his classes in French and Spanish for the winter season. Lessons given to public schools in Greek, Latin, general Grammar his mode of tuition will be found easy and of the English, French and Spanish guages, and will explain the theory of their pronunciation and their distinctive, peculiar other modern tongues. Parties (whether desirous of becoming pupils or not) who take an interest in the study of modern languages, are invited to attend the class. The regular classes will commence for French, on the casses will commence for French, on the 6th, and for Spanish on the 7th November, at 7 o'clock, p. m. Persons wishing to learn Spanish or French will do well to join the classes at the commencement, as the bases of these useful languages will be then laid down. Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alternative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Stramous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. Illow completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scropula and Scropulous Complaints, Ereptions and Ereptive Diseases, Uncers, Pimples, Blotches, Tumors, Salt Rifelm, Scald Head, Syphiles and Syphileting Appleting and Perfections, Mercurial Disease, Diopsy, Neurolaids or Tic Douloureaux, Derelity, Dyspersia and Indigestion, Eryspelas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints grising from Intertity of the Blood at Great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many ranking disorders are nipped in the bull. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerons sores, through which the system will strive to vid itself of corruptions, if not assisted to do this through the natural SCROFULA AND SCROFULOUS COMPLAINTS,

femedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural-channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy bette health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various, extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and clear. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the hoad of obloquy which rests upon it. And we think we have ground for believing it has virues which are irresistable by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication
